

RÉMY GHALAYINI

PRODUCT MANAGER

PROFILE

Experienced product leader with a proven track record of driving product strategy, leading teams, and scaling successful products to achieve product-market fit. As a product growth expert with a tech background, I bring a powerful mix of technical expertise and business savvy to product management roles to scale products and attract users. Adept at quickly assessing priorities, defining an inspired product vision, and rallying cross-functional teams to execute. I am passionate about working for users, building user-centric products that solve real problems, and strategically guide product development and growth.

WORK EXPERIENCE

2021 - now

CTO & HEAD OF PRODUCT

GLOBHE / Stockholm, hybrid remote

Led product development and technology in a fast-paced startup environment. Collaborated cross-functionally to design, test, build, and scale a digital marketplace from the ground up. Spearheaded product strategy and execution, delivering 500% user growth and product-market fit while leading UX/UI focused development.

- Assembled and led an international team of 10 developers and UX designers in 4 continents to bring product vision to life.
- Formulated and executed a comprehensive product strategy that streamlined workflows and standardized technology, enhancing overall efficiency and performance.
- Developed, owned, and built a dynamic roadmap that fits the company long term strategy and answers users' needs. Transformed the company into a user-focused product culture.
- Authored thorough documentation, ensuring seamless knowledge transfer, and promoting best practices throughout the organization. Reduced meeting and onboarding times by 75%.
- Conducted meticulous tech due diligence and delivered persuasive product pitches to investors, which helped closing successful pre-seed and seed rounds for GLOBHE

2019 - 2020

DATA SCIENTIST

Svenska Petroleum Exploration / London

CONTACTS

Phone: +46 7 36 26 78 92

Website: <https://rghalayini.github.io>

Address: Västra Götaland, Sweden

EDUCATION

2015

PhD IN GEOPHYSICS & DATA ANALYTICS

Sorbonne Université / Paris

2011

MSc IN GEOSCIENCE & GEOSPATIAL ANALYSIS

University of Aberdeen / UK

TRAINING

2020

SFI – SVA SWEDISH LANGUAGE COURSES

Folkuniversitet and multiple kommuner

2012-2018

ONLINE COURSES IN JAVASCRIPT, PROGRAMMING, PYTHON & MACHINE LEARNING

Columbia, Harvard and PennState Universities

WORK EXPERIENCE

CONTINUED

Contracted by SPE to extract value from their complex data, provide foundation for their data-driven decisions, and train staff in visualization, storytelling, presentations, and data analysis. I have applied multiple machine learning techniques and boosted internal data competencies.

- Applied new machine learning and data analysis techniques to extract value from data.
- Created web apps to visualize data and share it with partners.
- Influenced management to invest + 100M\$ in Cameroon after convincing data visualizations and results.
- Attracted new investment partners through clearer communication.
- Trained all staff members in data analysis, visualization, and storytelling with data.

FULL STACK DEVELOPER & DATA SCIENTIST

2016 - 2018

Agenor Energy

Consultant to multiple clients providing expert assistance in product development, data analysis, machine learning techniques, and front-end development. I have trained staff, created visualization apps, and steered strategies for digitalization.

GEO-DATA ANALYST & RESEARCHER

2012 - 2015

IFP Energies Nouvelles / Paris

Three years contract with IFPEN in conjunction with my PhD focusing on research in geophysics and development of tech tools to analyze data. My work involved programming, data collection, sorting, cleaning, exploration, modeling, interpretation of widely disparate and sparse data sets, visualization, presentation of results, and storytelling. I was also active with mentoring of students and communications.
